Please contact us about your arranged overdraft

Dear

We're just catching up with you again about your arranged overdraft usage, as it looks like you're still relying on it for most of the month. As we mentioned in our last letter, the less you use it, the less it will cost you. Repeated use of your overdraft, along with the interest you're paying, could be harmful to your finances, and doing nothing about it could make your financial situation worse - something we'd like to help you avoid.
